Dear Monaghan,

You will note the new heading - this will be our mailing address from now on. For how long will depend how soon this war terminates or we terminate. I have had a little tour in the past two weeks in fact I could almost have walked howl endurance & nerve with me. I am convinced I will never make a sailor. I returned by air and I'm sold on air travel.

As usual we can't say much but a fellow sure has to have an elastic conscience especially in regards to rubrics & regulations.
