Just heard of Peace Proposal:  
Anxiously waiting!

That Atomic Bomb must resemble the Drumming Twins at a meeting of the Harmon Circle.  
Nazi trying to re-orientating them like bug-out dog - "I shall return".

How's the prime minister, Aide de Camp,  
Ambassador at large, Vicar General and empire  
today? They used to give the big leaguers  
extra compensation for working a double  
header - how you doing, Father?

Don't let this sudden shattering of  
silence have an atomic effect upon you -  
"Up and Atom" Brady bombs Stahl Chemistry  
would make a good Witness Headline.

Had a letter from McAnoy recently -  
came via Belmont - he wants to start a  
Sleeping Pastors Association and was soliciting  
membership fees. Seems there ought to be  
quite a few of the "alder" clergy who would  
be eligible, at least 'tis rumored they  
have taken some flyers in the past and  
have surmised a few "crashes" of course  
Mae is kept up nights dodging "eggs", at  
least Radio Tokyo claims they were down that  
way last night.
