

will be able to tell in the very near future.
Don't look too bright - going thru obstacle course
three times a week - & infiltration course once
a week. (Both of these are ~~same~~ Honey's the latter
because live ammunition is used and if you expose
your funny or any other part of the anatomy it will
be shot off if not punctured -

How is the Deacon - I see where O'Leary & Churchel
have returned to normal activities -

By the way is there any organization that furnishes
allan liners - I came down here to find the place
bare to say the least - 12 ft allan liners - (4) cups,
purifiers, lavito towels - etc

Let me extend the Xmas Greetings, belated tho
they be to His Excellency & Yourself.

Sincerely yours in Christ
