

Boscob Order, is chaplain at this hospital. It's at the place where we first hit the Philippines. Some of us were sent to this hospital then for eye tests. Luckily, he has good books.

You may be sure a large ward like this is nothing like 326 in Mercy Hospital, Dulques.

Sorry to hear of the death of so many of our priests. May God be good to them!

Mail is scarce; because of my perpetual motion, it does not reach me. However, my mother's comes through best and that's what counts most.

~~I forgot to say in my last letter, don't do anything about a small ciborium. Just know, at my station, I am close to a civilian church.~~

~~I presume some of the boys are back home.~~

~~Remember love to Archbishop Beckman and Pohlman and all the priests. Keep me in the prayers.~~

Remember me to all at home

Sincerely in Christ

C. A. Ferring
