

V-Mail Service provides the most expeditious dispatch and reduces the weight of mail to and from personnel of our Armed Forces outside the continental United States. When addressed to points where micro-film equipment is operated, a miniature photographic negative of the message will be made and sent by the most expeditious transportation available for reproduction and delivery. The original message will be destroyed after the reproduction has been delivered. Messages addressed to or from points where micro-film equipment is not operated will be transmitted in their original form by the most expeditious means available.
