UNITED STATES NAVY

Naval Training School (Chaplain)
Saturday P. M.

Pt. Dev. Msgr. D. V. Foley,
Dubuque, Ia.

Dear Monsignor:

Excuse the "ritzzy" stationery. I'm writing this from the Training Station at Norfolk, and it was all I could pick up. Was sent down here to help out over the weekend and have a little time this evening.

Was glad to receive your letter with the "news" of the diocese. It came on a day when Dubuque, and everything connected with it, seemed pretty remote and part of another world.

Survived the first week at least, although I'll admit it was pretty hectic. But I'm learning "what the score is" & think I will be able to make the adjustments better from now on. Found the P. D. (physical drill) pretty strenuous this week, but I'm grateful now for the "light training" I did before leaving home.

If I don't lose any time for illness, etc., I hope to finish with the class of June 20th.

I understand that the "Chief Wailer" of Clear Lake is something like a man without a left arm. He's been holding out on the "Moral Builders" on me. (That's what we used to call the "bulletins" from Clear Lake.)

Remember me to any of my friends at the College, that may inquire. Tell them that I still have my chin up - most of the time.

With best wishes, I am
Sincerely,

Frank Churchill
