

Should some one have an extra siberium, preferably small, it would be appreciated.
Borrowed Dr. Sullivan's Revolution set; his chapel in the Basilica of New Guinea.

UNITED STATES ARMY

It's not far from here. ² began
reserving the Blessed Sacrament
here; I believe I can continue here
on weekdays alternating between Mass
and Rosary-Communion here and at
my place. A priest from a neighboring
hospital will take care of this on
Sunday and one day on weekdays.

I'll also have a Port Battalion
to look after some distance from
my place, so the jeep will have to
jump or bump along continuously.

² was
very much surprised to hear of
Dr. Richards' death; one of his boys
and one of his girls, a nurse, were on
the ship with us.

You may be sure everyone is weary
of this war. 16, 32, 38 months
is a long time under these conditions in
these parts. And then we, here, are badly
in the war. Sort of distressing to see
the yellow and ^{of} fatal ^{fever} faces; we take
it every day; orders; suppress malaria.

² Announced Baptismal Membership in Society
for Prop. of Faith yesterday. This morning a nurse,
going home on rotation, brought in 3 for parents
and self

² began Miraculous Medal Novena this
evening.

My regards to ^{the} Ambassadors ~~Bushman and Dodd~~
and all the ^{the} priests ~~in Christ~~
Sincerely in Christ
C. A. Ferris
